

Rezultati pismenog dijela završnog ispita iz predmeta “Diskretna matematika” (regularna verzija)

Regularnoj varijanti pismenog dijela završnog ispita pristupila su **104** studenta. S obzirom na činjenicu da je ovo prvi put da se na ispitu javljaju i teorija i zadaci, svim studentima su podijeljena motivaciona 2 poena (ovo neće biti slučaj na narednim rokovima). Zajedno s ovim push-up poenima, neophodni prag od 15 poena je prešlo **38** studenata, tj. oko **36.5 %** (bez ovih dodatnih poena, samo bi 21 student, tj. oko 20.2 % prešlo prag, što je loše, ali je u prosjeku otprilike isto kao ranijih godina na I terminu II pacijalnog ispita). Radi boljeg uvida u to šta su studenti uradili, i smanjenja bespotrebnog dolaska na uvid u radove, pored ukupnih poena prikazana je i distribucija poena po zadacima (Z0 su push-up poeni). Mole se studenti da ne dolaze na uvid ukoliko je prikazana distribucija poena u skladu s njihovim očekivanjima.

U vezi uvida u radove, usmenog dijela završnog ispita (za one koji ispunjavaju uvjete), upisa ocjene, i sličnim detaljima, studenti treba da prate obavijesti koje će biti objavljeni na C2.
